

Instalar Git en el equipo

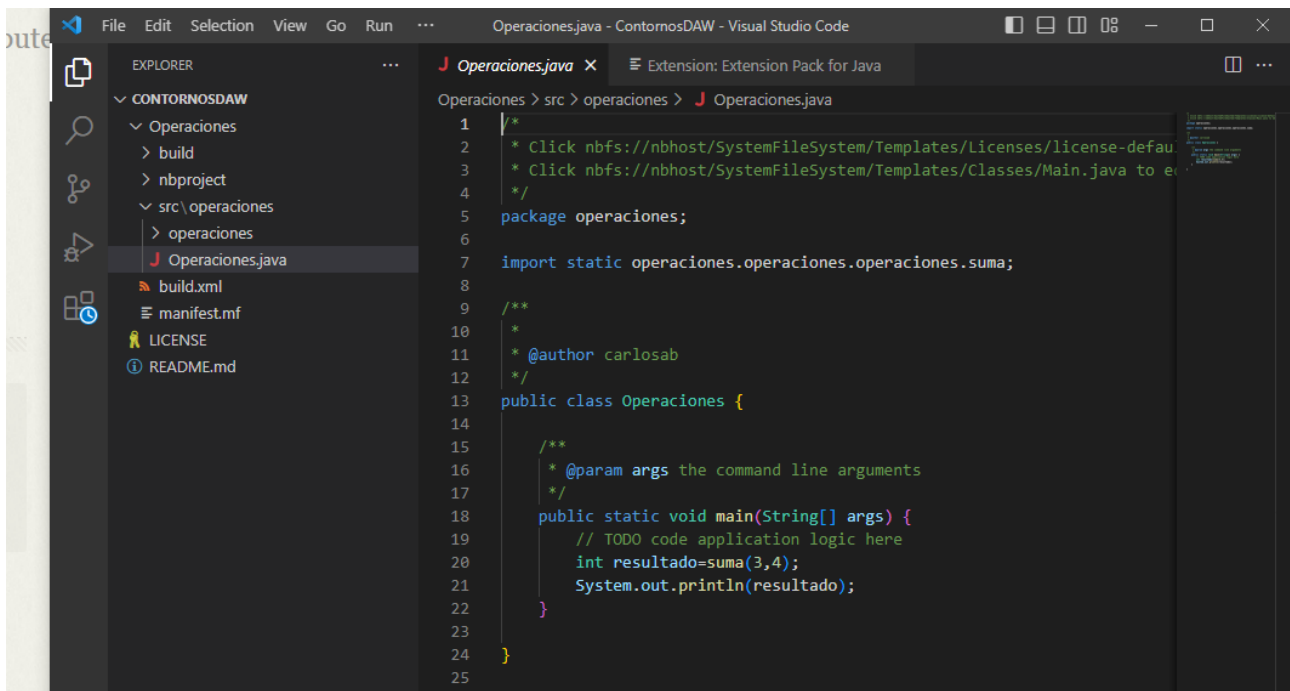

Desde la consola de git, introduce tu email y nombre de usuario de github con “**git config --global user.email/name ...**”

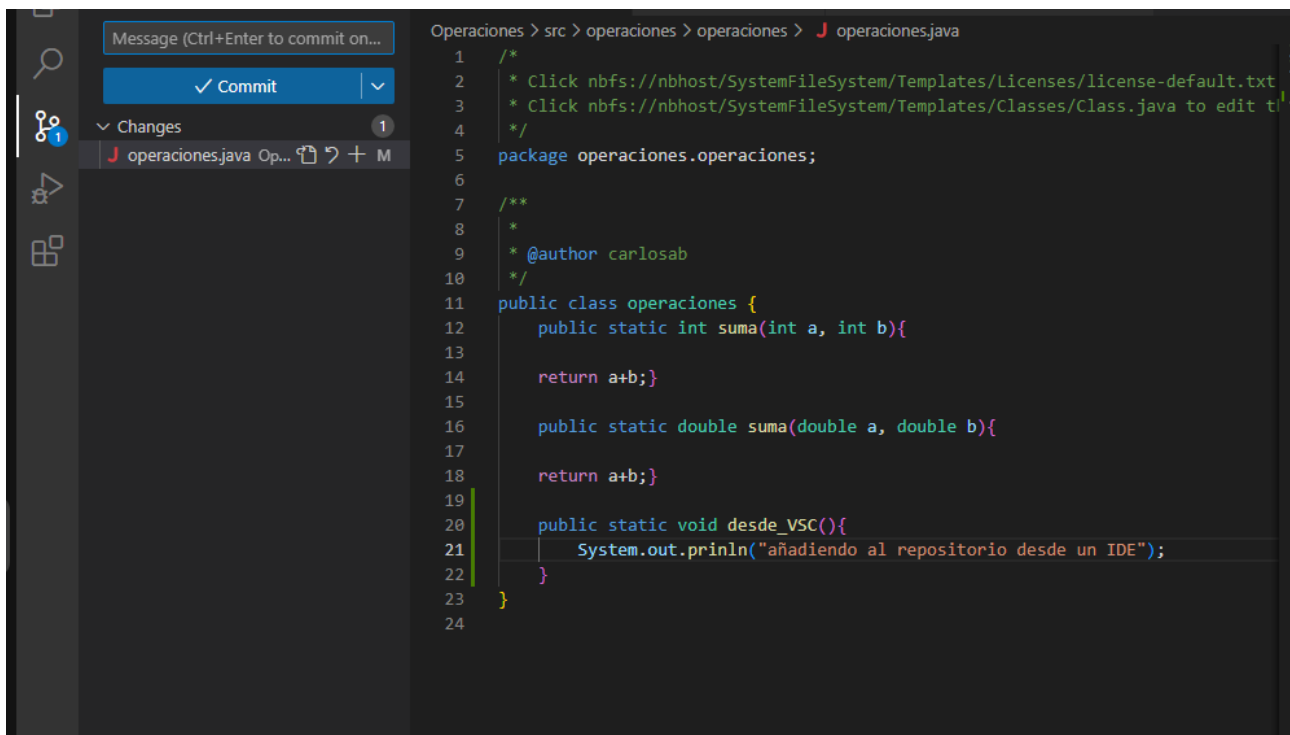

En VSC, ir a la opción “source control” >”clone repository” y pegar el enlace

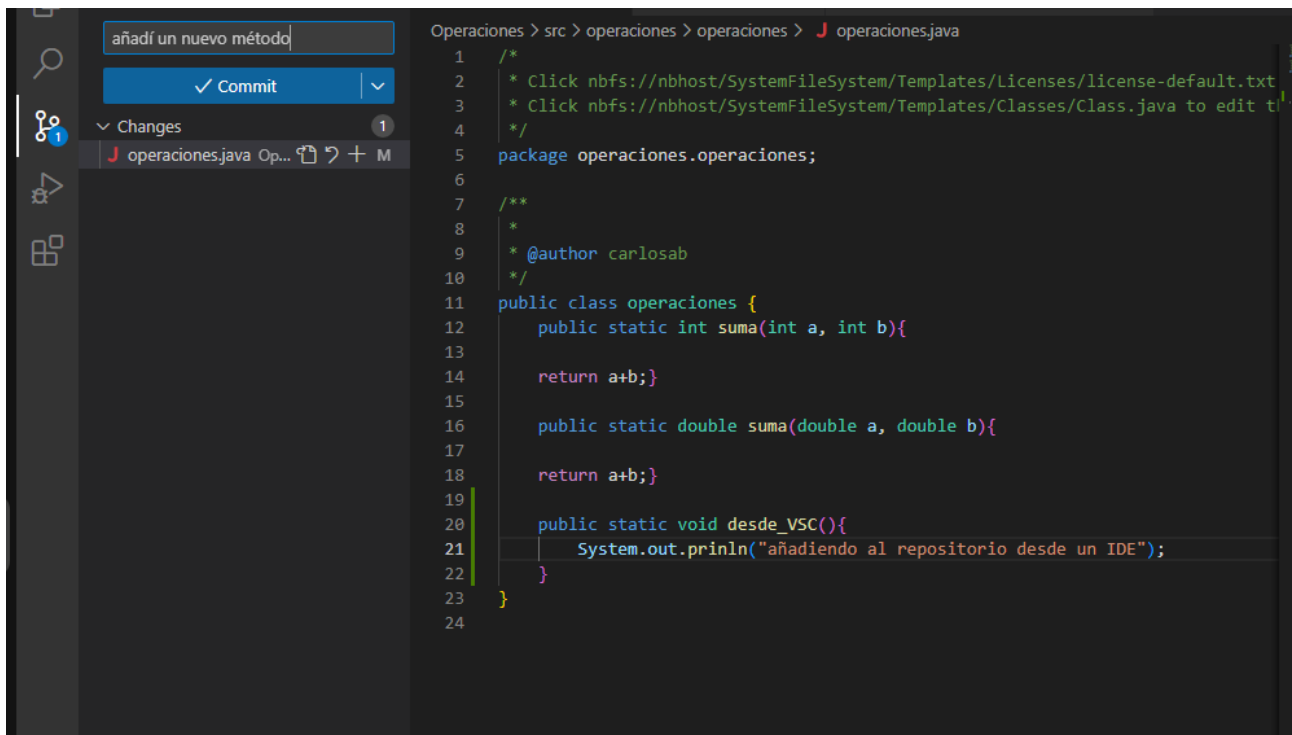

Seleccionar donde quieres tener tu copia del repositorio

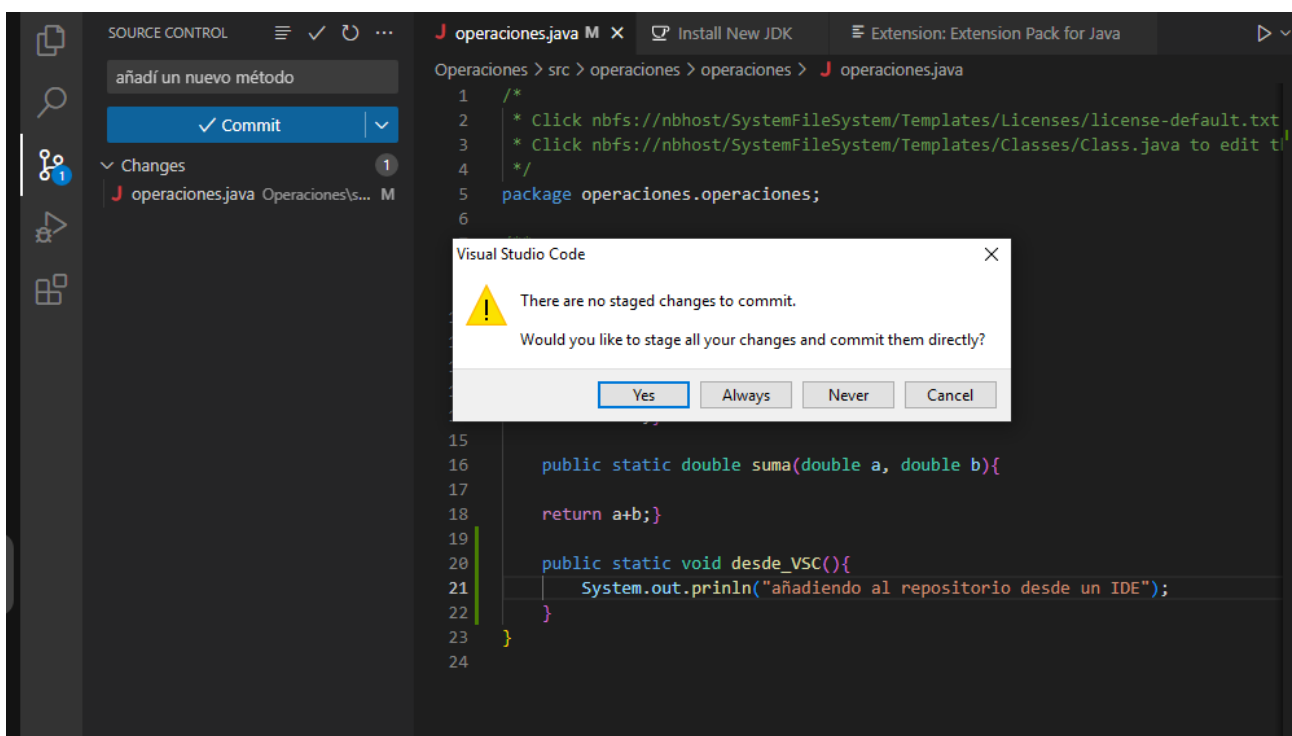

Seleccionamos la copia para trabajar con ella

Una vez hechos cambios sobre la copia, aparecerá una notificación en “source control”, vamos ahí y tenemos varias opciones de qué hacer con esos cambios

Añadimos un mensaje a la actualización que vamos a hacer y le damos a commit

Si no le dimos a “Stage changes”(símbolo +) antes de hacer commit, te preguntará, dale que sí.

## New fine-grained personal access token Beta

Create a fine-grained, repository-scoped token suitable for personal API use and for using Git over HTTPS.

### Token name \*

token-DAW ✓

A unique name for this token. May be visible to resource owners.

### Expiration \*

30 days ⬇ The token will expire on Thu, Apr 13 2023

### Description

What is this token for?

### Resource owner

 carlos-arranz ▼

## Repository access

☐ **Public Repositories (read-only)**

☐ **All repositories**

This applies to all current *and* future repositories owned by the resource owner.  
Also includes public repositories (read-only).

☒ **Only select repositories**

Select at least one repository. Max 50 repositories.  
Also includes public repositories (read-only).

 Select repositories ▼

Selected 1 repository.

Una vez generado, copialo

Al hacer commit, se te abrirá una ventana para acceder a github, usa el token para registrarte

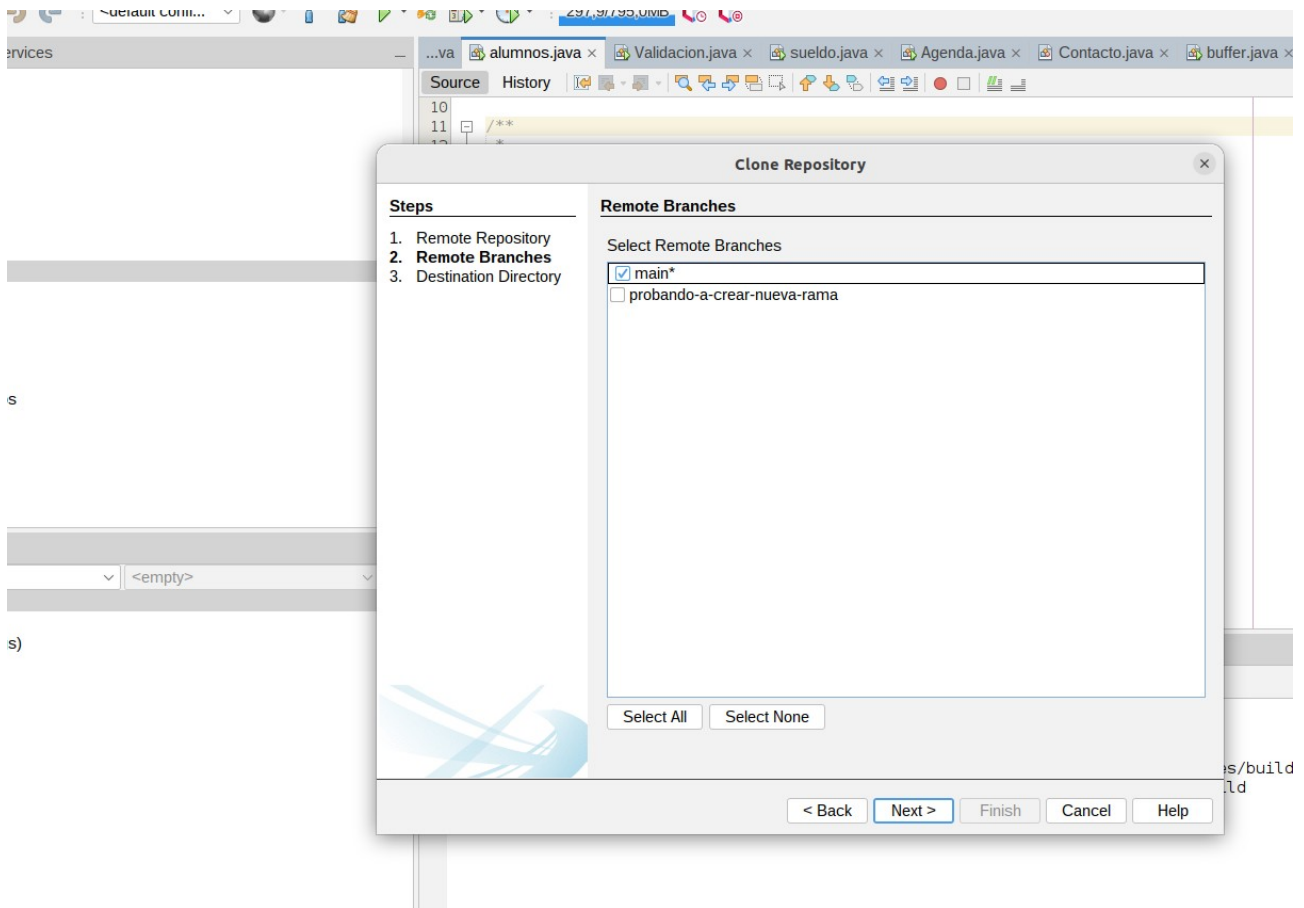

Una vez en el repositorio, verás que el cambio ha sido realizado

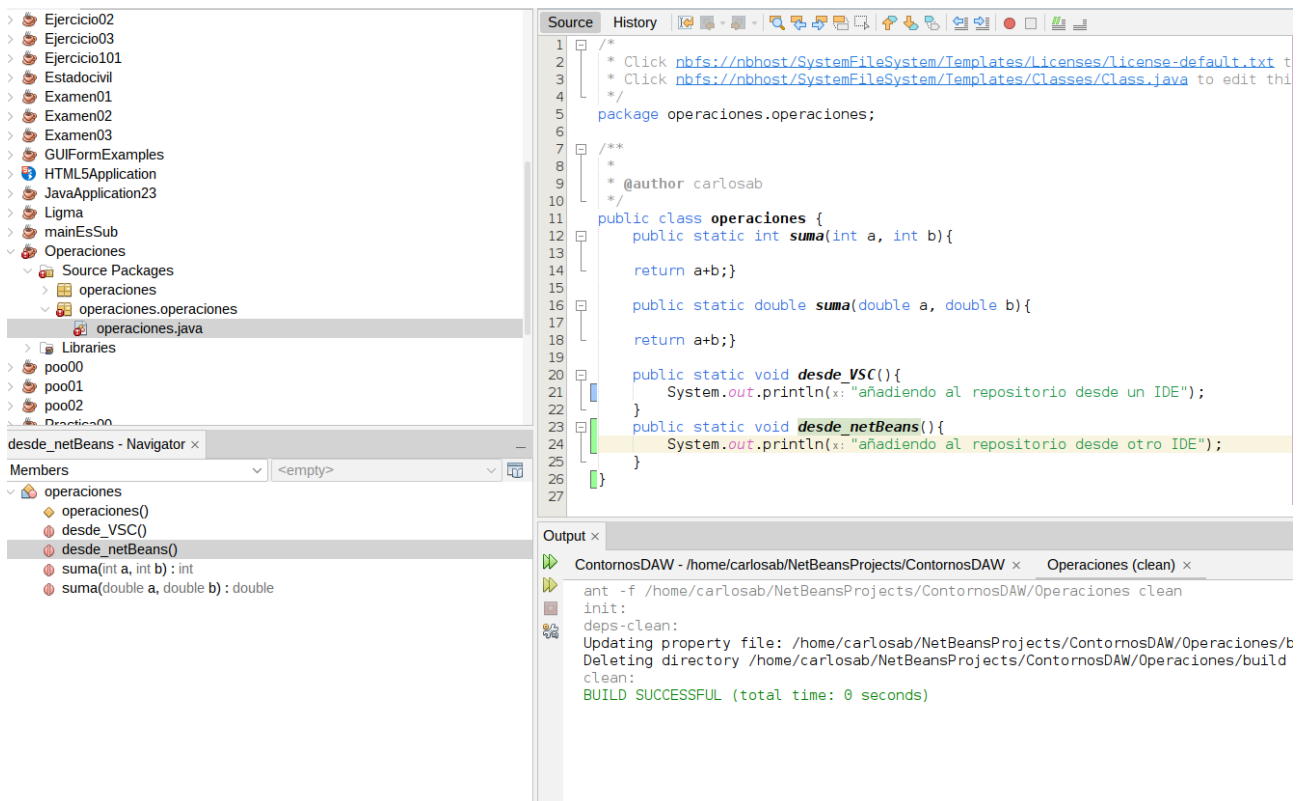

En netBeans, “Team”>”Git”>”Clone Repository”, e introduce el enlace , tu nombre de usuario y el token

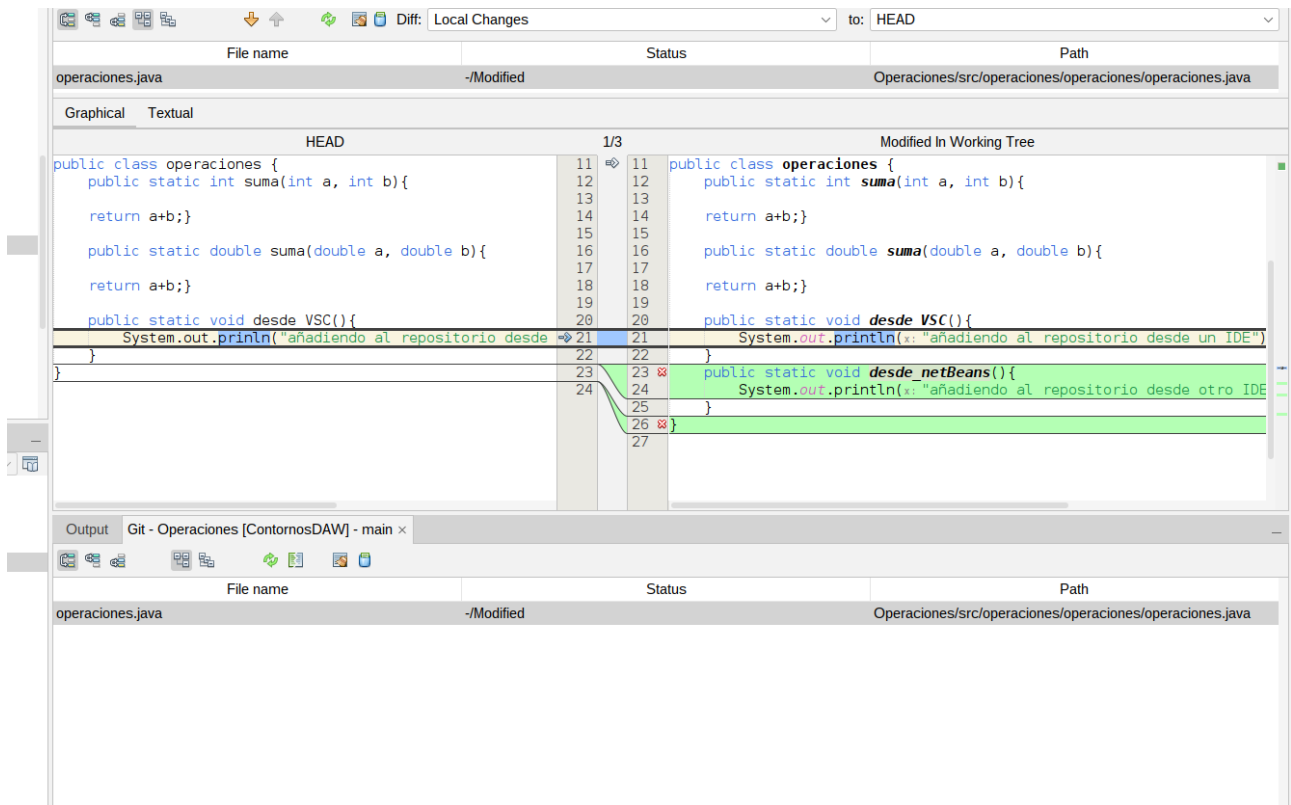

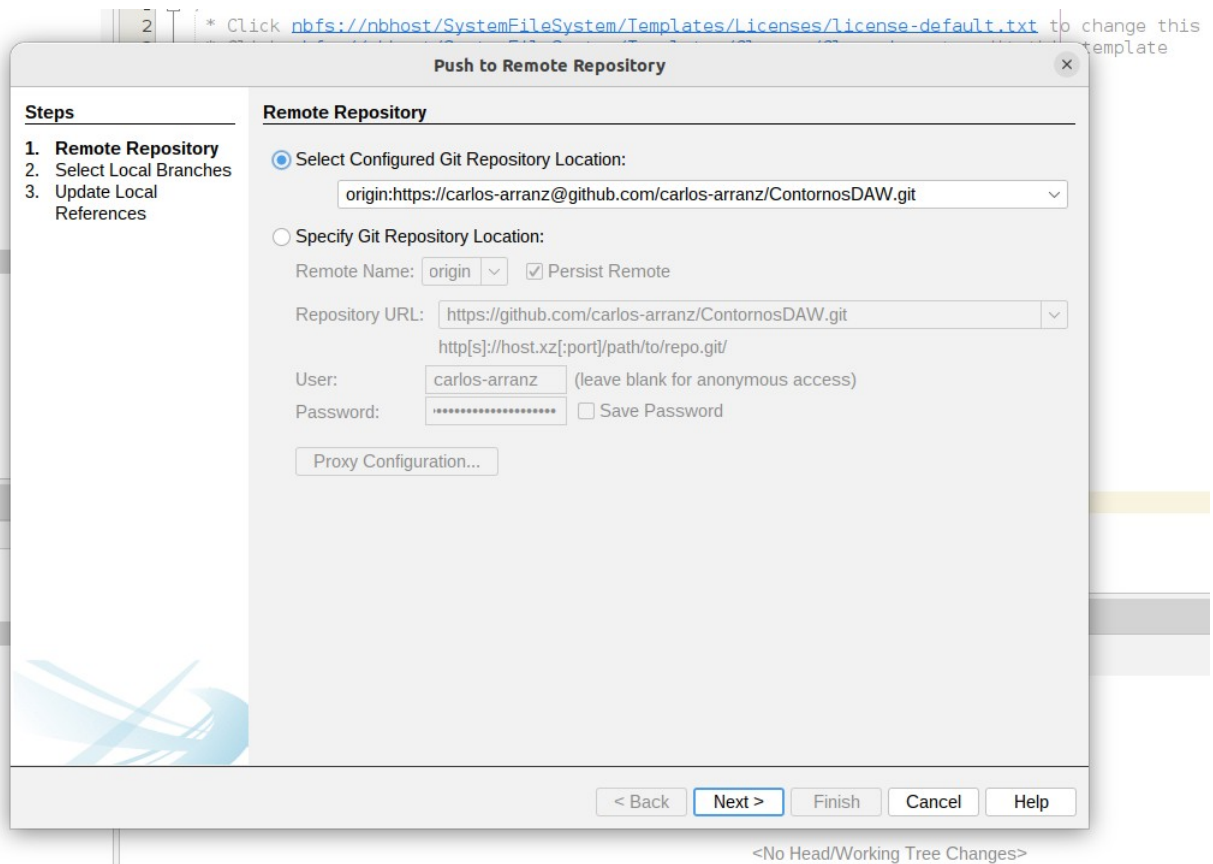

Selecciona la rama o ramas que quieres clonar

Actualizamos el código

clik derecho en el proyecto >"Git">"Show changes" nos permite ver lo que se ha cambiado

Clic derecho en proyecto>"Git">"Add" y luego "Commit", por último >"Git">"Remote">"Push" para mandar el cambio al repositorio
